**PT. DWI ANEKA JAYA KEMASINDO**

*Realizing Big Dreams*

PT Dwi Aneka Jaya Kemasindo Tbk is an Indonesia-based company primarily engaged in manufacturing paper-based packaging. It classifies its business into two divisions: offset printing and corrugated paperboards. The company also offers design services. Its products are used in various industries, including food, electronics, pharmaceutical, and telecommunications. Its manufacturing facilities are located in Tangerang, Indonesia.

A company with big dreams to be one of the leading company in Indonesia specializing in offset printing - corrugated carton, the company actively serves the Indonesian and international market and needs to be able to track everything from sales order to fulfillment.

Relying on **CPS/Enterprise**, PT Dwi Aneka is able to scale higher levels with full confidence that its business is streamlined for maximum efficiency. The result? The ability to march forward with a bright prospect in the future, serving Indonesia's population of 240 million where the consumption level will continue to grow along with the growth in Indonesia's economy and welfare.

# Cheong Meng Paper Boxes

*A Major Force*

---

As a leader in the Malaysian packaging industry, the Cheong Meng Group's reputation for globally competitive quality products and value-added service is founded upon more than 33 years of management experience in the sector, dating from the establishment of the original business back in 1964.

Aiming to become a major force in the Malaysian packaging industry, the company offers its expanding international client base a wide range of sophisticated design and packaging solutions. To do this, Cheong Meng needs to make its business move faster at its 200,000 sq.ft. factory on a 6.6 acre site at Nilai.

A long time user of Prestige Atlantic's CPS 2000, Cheong Meng upgraded to the state of the art **CPS/Enterprise 2015**. The result? An even more efficient system to help Cheong Meng generate a total paper board production capacity of 72,000 metric tonnes per annum.

# AP Packaging (Hanoi) co. ltd

*Pulling It Together*

---

70km east of Hanoi, at Nam Sach Industrial Zone Hai Duong, sits AP Packaging (Hanoi). With a core business of manufacturing corrugated boards and boxes, AP Packaging (Hanoi) is one of the many in the paper and packaging industry that uses the CPS Enterprise.

As a long time user of **CPS/Enterprise**, AP Hanoi knows workflow between departments and increased workforce productivity is vital to its business goals. Improved time-to-market and product quality and enhanced customer satisfaction and relationship were just some of the business metrics it wanted to improve on.

With the **new HP RX2800i4 Server**, the current CPS/ Enterprise runs better and faster, giving AP Hanoi the edge it takes to move forward.

**HP Itanium RX2800i4 Server**

**HP DAT 160 EXT Tape Drive**

**HP R1500KVA UPS**

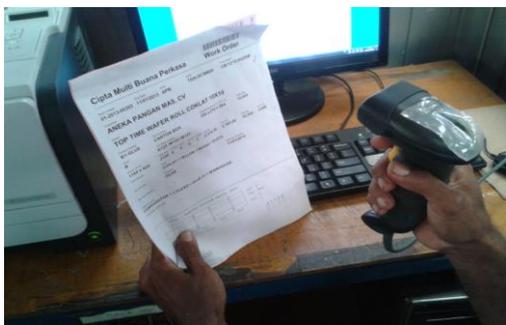

# PT. Cipta Multi Buana Perkasa

*Efficiency and Effectiveness*

---

PT. Cipta Multi Buana Perkasa is a corrugated manufacturer, established on July 1999 at Cikande, Serang. In 2005 they move to Tangerang, sitting on 3 hectares with 2,5 hectares of production area.

In order to keep up with its massive growth, PT Cipta Multi needs to improve control and efficiency in all levels of business.

With the **CPS/Enterprise**, the company is able to manage its business more effectively, and improve the information it can provide to its customers. As Darwin Arif Wijaya, IT consultant of PT Cipta Multi Buana Perkasa says, "CPS/Enterprise is very good software. It's easy to use, and is helping our company to grow efficiently."

# Dai Suwon Packaging Group

*One Step at Time*

---

Dai Suwon is so confident with its offering that it boldly declares "In the process of reducing packaging cost through value engineering, we separate UNNECESSARY COST from NECESSARY COST, without affecting the PERFORMANCE of the packaging. In order accelerate growth, it is important for that comprehensive management reports are generated to improve decision-making processes. This helps lower costs with accurate forecasts for raw material requirements reduces wastage.

With the **CPS/Enterprise**, Dai Suwon implemented the ERP system in Cx2 data center to super-connect its 4 factories in Puchong, Klang and Nilai. This has improved time-to-market and product quality has strengthened customer satisfaction levels and relationships, living up to its bold promise.

# Muda Pasifik Sdn. Bhd.

## Conquering The Nation

Muda Pasifik pioneered the paper milling and packaging in Malaysia with their first paper mill in Tasek, Penang in 1964 and their first corrugator plant in Petaling Jaya in 1971. Today, the company owns one of the largest integrated paper mill and corrugated plants in Malaysia.

The company is committed to focus on customer satisfaction through quality products and customer service, ensuring supply reliability, benchmarking performance, capacity building, prioritizing safety and health, enhancing research and development to achieve products for world class standards.

With the **CPS/Enterprise** it is able to increase efficiency in its roll supply chains, GRS, Roll RF Stock-take, FB Stock-take, COA and GIRO, putting the company on track with its vision to be the market leader in the paper and paper related business.
