PT Satyamitra Kemas Lestari, Jakarta CPS/Enterprise Weight Bridge Control – High Accuracy & Tight Control for logistic operation

Unauthorized delivery is often one of the challenges faced by the paper and packaging industry. PT SKL tackled the issue head-on with its investment into the **CPS/ Enterprise Weight Bridge Control Module**. With this, each delivery is accurately tracked to ensure there are no unauthorized deliveries.

Upon entering the delivery compound, the lorry is weighed at the security counter. The CPS Enterprise Weight Bridge Control Module then generates a transport ticket by recording its incoming weight. During the loading and processing of the delivery order load, it is updated real-time to update the transport ticket. Upon leaving the security post, the lorry is weighed again to capture its out-going weight. If there is a discrepancy in the weight, the management is automatically alerted.

With a simple but effective way to tracking unauthorized delivery, PT SKL is able to keep its business moving smoothly with no hiccups.

Step 1:	Vehicle Check- In
Step 2:	Goods Loading
Step 3:	Vehicle Check-Out
Step 4:	Discrepancy Alert

Alcamax Packaging (Vietnam) Co Ltd, Vietnam

Upgrade to CPS/Enterprise 2010

Alcamax Packaging (Vietnam) is part of the Thai Container Group (TCG) today. But at the time it was part of the Golden Frontier Berhad (a Malaysia public-listed company), it has already installed the CPS/ Enterprise 2000 back then in 1996. When it was brought over by TCG, senior managers and IT professionals evaluated the CPS/ Enterprise and made a decision in June 2012 to upgrade it to the new **CPS Enterprise 2010** full package that is powered by the HP rp2430 enterprise server.

As Alcamax Packaging (Vietnam) continues to leverage on the solid benefits of the CPS/ Enterprise, it looks forward to continue to grow its business exponentially.

EE SIN Paper Products Pte Ltd, Singapore

REX 2010, Cloud Computing & Radio Frequency for Warehouse & Logistic

To understand the importance of a seamless business process, one does not have to look further than at EE Sin Paper Products. Having recently relocated its warehouse to a multi-storey warehouse that is fully equipped with wireless connection, EE Sin Paper Products stepped up its operations by making it web-based and wireless.

This new software allowed staff from logistics to receive packing list that is issued by the Customer Service department from the convenience of their mobile device. Having received the packing list, the logistics staff proceeds to immediately pick up the specific stock using a barcode scanner. During the scanning, the **REX 2010** will update real-time the delivery order and inventory. Upon picking, the logistics staff simply confirms this with a press of a button, and the delivery order is immediately printed at the loading bay. Powered reliably by HP rx2600 enterprise server and apache web serve, it is no wonder EE Sin Paper Product is always at the forefront of the industry.

Improve Efficiency, Streamline Processes and Reduce Operating Cost

ISO 9001:2008 Certified

Prestige Atlantic Asia, a software company specialize in Paper & Packaging Industry, announces a milestone achievement in becoming certified to the ISO 9001:2008 Quality Management Systems standards and guidelines.

Prestige Atlantic Asia has achieved the **ISO 9001:2008 accreditation from UKAS**. This certification is the culmination of years of hard work, consistent top-quality work, and the dedication of our employees at Prestige Atlantic Asia.

ISO 9001 is a set of international standard and guidance documents for quality management and quality assurance. The standard represents an international consensus on good management practices, policies and procedures with the aim of ensuring that our organization can, time and time again, deliver the product or services that meet the customer's quality requirements.

We believe that our decision to become ISO 9001 Certified is a proactive one that not only anticipates the demands of our customers, but also demonstrates our commitment to providing quality services. To maintain our certification, UKAS will perform annual audits to ensure compliance and to assess initiatives for continued improvement.

This certification further strengthens our commitment to adhere to our company policies for continuously improving the products and services that will meet or exceed our customers' expectations. Our customers can be confident that Prestige Atlantic Asia is dedicated to maintaining the highest effectiveness and responsiveness in achieving our goal of total customer satisfaction.
