

CPS/ Enterprise 2015

GST Implementation Simplified

For 2015 a major event was the introduction of the GST from the Malaysian government. The Goods and Services Tax (GST) is a value added tax in Malaysia. GST is levied on most transactions in the production process, but is refunded with exception of Blocked Input Tax, to all parties in the chain of production other than the final consumer.

CPS/Enterprise 2015 comes with GST features to help our Clients incorporate GST implementation. Trainings were provided and support systems were built to help ease the transition.

Among the companies from the Corrugated Carton sub-segment were Bintang, Cheong Meng, COP, Kotak Malaysia, MPI, Muda Pasifik, Ron Seng, OPS Paper, South East Asia, Rengo Malaysia, Inter-Pacific, etc. For Converters, some happy clients include Dai Suwon Group, Fairview, Golden Rise, Grand Fortune, Jishan Pack, MC Pack, MYT Packaging, etc. For Paper Mill, they are Pascorp Paper, United Pulp & Paper, Ecopalm Paper, etc.

GST Seminar

Helping Customers Get on Board

Upon the introduction of the GST, many of our customers enquired how GST works and how it will impact their business.

The Malaysian Corrugated Carton Manufacturer's Association (MACCMA) organized a GST 2015 Seminar with speakers from the Customs Department and Prestige Atlantic Asia on 19th Dec 2014, Friday at Tropicana Golf and Country Resort. Among the topics covered were salient features of GST and registration, accounting for tax, business preparation & transitional. Our CEO Jeff Lye held a talk and a demonstration of CPS/Enterprise 2015 was showed. The audience were receptive and asked questions on how CPS/ Enterprise would help with the implementation of GST.

OPS Paper Products Sdn. Bhd, Malaysia

Control on All Levels

A company based in Port Klang (paper cores) and Seremban (corrugated carton boxes), OPS Paper Products specializes in corrugated carton boxes and printing, die cut, nesting, angle and edge protector and other paper core products. Running two facilities require a tremendous amount of coordination and seamless interaction, as well as focused collaboration. Within the facilities, a massive amount of coordination is needed.

With the **CPS/Enterprise**, the company is able to have top level control over the entire business process. Not only that, analysis of complex numbers and processes into digestible and actionable steps allows the company to make strategic measures. With the CPS/Enterprise, OPS Paper Products can focus on doing what really matters: making great products for their customers while leaving the complexity to CPS/ Enterprise.

Grand Fortune Corporation Sdn. Bhd, Malaysia

Meeting Market Needs

Grand Fortune was established in 2007. It specializes in manufacturing and designing of top quality carton boxes for various industries such as electronic industries, hypermarkets, courier services etc. In fulfilling their business partners' and market's needs, they have more than 120 workers to process orders daily. The company has not only achieved the quantity demands of customers in market, but also achieved the quality control for their products. They have been awarded the ISO 9001 from UKAS in the year 2008 and also ISO 14000 certificate from the SIRIM year 2011 as well.

With such an impressive range of experience, the company looks to bring itself to greater heights. With the implementation of **CPS/Enterprise**, Grand Fortune has complete 100% control over its entire chain of processes, leaving nothing to chance. With time saved, accuracy improved and efficiency maximized, the company leap frogs forward with much precision.

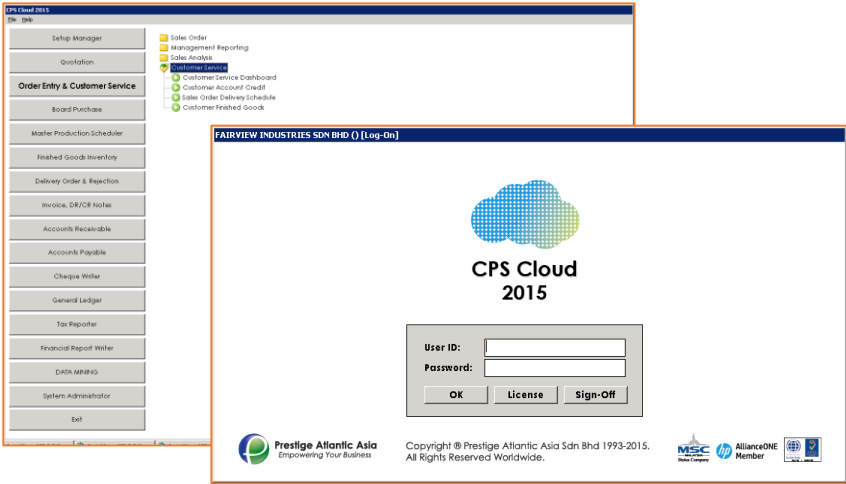

Fairview Industries Sdn. Bhd, Malaysia

From Trusting to Trusted

Fairview is the manufacturing Division of the Fairview Group. From its inception, the division was poised to be the place where the group can tap its knowledge and expertise in cost management and control. The company has grown from a small factory to an ISO certified company delivering packaging solution to its customers.

With the implementation of the **CPS Cloud**, the company can enjoy a corrugated converting solution in a box. CPS Cloud is powered by the most reliable and trustworthy HP Integrity enterprise servers and HP-UX operating system. Our servers are hosted in international highly reputed Data Centres operating 24 x 7 and are well equipped with high-performance internet access, power protection, are fully air-conditional, fire-proof building, highly-tight security, etc.
